

10/17/2016

Dear Pain Management Group (PMG) Patients,

We are pleased to announce two new services available for our patients. We believe these services will allow us to better assist and care for you in ways previously unavailable. While celebrating our 20th year in practice, we remain focused on providing unsurpassed care for each patient.

First, we would like to introduce Psychiatric Solutions and Michael Radyko, PMHNP-BC, APN, LCSW. Michael joined PMG in August of 2016 and has proven to be a valuable asset for both, our patients and providers. Michael's area of focus is the evaluation of mental health and how it relates to patients experiencing chronic pain. He is currently assessing a large portion of our patient population in efforts to better support your PMG provider. Psychiatric solutions is increasingly becoming a normal part of pain care, nationally, and we are proud to be at the forefront of introducing this resource, locally. We are excited for you to meet Michael and know that you will find his personality and the experience very engaging and positive.

Second, PMG has recently launched Nutrition and Dietary Services within our practice. Amanda Arnold, MS, RDN, LD is a Registered Dietician and looks forward to meeting with you when recommended by your PMG provider. We believe it is our responsibility to assist with your dietary needs and work with you to achieve your nutritional goals. Amanda is welcoming and brings a wealth of ideas and insight we are sure will be of benefit for you.

If you have any questions about these newly-added services, please ask your provider during your next visit. We consider it a true honor that you allow us to assist with your care and we are proud to have additional means of supporting you.

Respectfully,

The Pain Management Group
